

MSCR – Managed Supply Chain Risk

Security is about more than technology. Best practice policy and process underpin a successful security strategy. With the growing risk of cyber-crime, data loss, malicious network attacks and brand damage, the need to understand and remediate security vulnerabilities has never been greater.

SECURITY MISSION STATEMENT:

“We will always understand where our vulnerability exist”

It’s common for organisations to understand where their physical security vulnerabilities lay and awareness is increasing around technical and human vulnerability, however supply chain vulnerability is often not present on Security Risk Registers. It’s a key component of security best practice:

NIST ID.SC-1 SUPPLY CHAIN RISK MANAGEMENT: “Cyber supply chain risk management processes are identified, established, assessed, managed, and agreed to by organizational stakeholders”

ISO27001 A.15.1 INFORMATION SECURITY IN SUPPLIER RELATIONSHIPS: “Information security requirements for mitigating the risks associated with supplier’s access to the organization’s assets shall be agreed...”

ARE YOUR SUPPLIERS A CYBER RISK?

By 2022, cybersecurity ratings will become as important as credit ratings

Cybersecurity risk ratings tackle a ballooning third-party problem

53% of organisations have experienced a data breach caused by a third party

Just 15% of businesses have reviewed cyber security risks posed by suppliers

AN ORGANISATION IS **FIVE** TIMES MORE LIKELY TO BE BREACHED IF THEIR CYBER SCORE IS BELOW THE RECOMMENDED LEVEL

As an extension of your team, Saepio’s Managed Supply Chain Risk Service assesses, continually monitors and remediates security issues presented by your valued suppliers.

OUR CYBER SCORE	SECURITY PARTNER	MARKETING PARTNER	FINANCIAL ADVISOR	WEBSITE SUPPLIER	IT SERVICE PARTNER	LEGAL PARTNER
A 95	A 94	B 85	B 81	C 75	C 72	D 62
FACTORS						
Network Security	B 89	A 91	B 81	B 85	A 94	D 60
DNS Health	A 90	A 90	D 60	A 90	A 90	F 58
Patching Cadence	A 100	B 89	A 94	F 52	F 24	F 38
Endpoint Security	A 100	A 100	A 100	A 100	A 100	F 46
IP Reputation	A 100	A 100	A 100	A 100	A 100	A 100
Application Security	B 84	B 86	C 71	C 77	A 91	C 71
Cubit Score	A 100	A 100	A 100	A 100	A 100	A 100
Hacker Chatter	A 100	A 100	A 100	A 100	A 100	A 100
Information Leak	A 100	A 100	A 100	A 100	A 100	A 100
Social Engineering	A 100	A 100	A 100	A 100	A 100	A 100

A weak cyber score is a signpost for hackers to probe further - they go after the low hanging fruit. This applies to you, your supply chain, your key customers, partners and competitors!

MSCR METHODOLOGY

Your Score

Remediate issues and maintain a good rating

Identify Suppliers

If hacked, which of your suppliers pose high risk?

Remediate Risk

Review supplier cyber scores and fix issues

Continuous Monitoring

Stay on top of supply chain risk in real time

Supplier Onboarding

Cyber score assessment prior to contracting

MSCR POWERED BY  SecurityScorecard | a specialist team + the market leading platform = proven results

Specialist knowledge, tools and time are required to effectively manage supply chain security risk, something many organisations can't justify acquiring in house. Saepio's MSCR service is the cost attractive solution to promptly assess and address the security of your supply chain. We use both sophisticated machine power to gather security indicators combined with questionnaires to continually assess the security maturity of your suppliers. We then embark on a remediation journey, providing the technical information your suppliers require to fix security issues, improve their cyber score and decrease the chance of a cyber incident that would impact your business.

WHICH OF YOUR SUPPLIERS ARE THE BIGGEST SECURITY RISK?

 Marketing Agency	 Financial Advisors	 HR Advisors	 SaaS Providers	 Product Suppliers
 Website Developer	 Legal Advisors	 Health Insurer	 IT Managed Services	 Internet Service Providers
 Customer Data	 Company Data	 Employee Data	 Network Connectivity	 Business Continuity

MSCR DELIVERABLES

Warm Welcome

White glove onboarding. Supplier Risk profiled, and questionnaires sent. Portfolios of suppliers created, and key contacts invited to the platform.

Executive Reporting

Initial baseline, and then monthly reporting of your cyber score, and that of suppliers. Monthly comparison reports to give strategic, executive view.

Bespoke Alerting

Custom alerting configuration based on supplier risk profile. Real time alerting when your score, or your supplier scores suffer material changes.

Service Reviews

Scheduled 6-month service review session, analyse progress of scores over preceding 6-months and highlight any areas of concern.

MSCR SERVICE LEVELS

The **Control** service is a mandatory component of all our agreements. You can then select as many companies as required to **Monitor** or **Manage**. There is no minimum or maximum number of companies you can add to your Saepio Managed Supply Chain Risk portfolio.

SERVICE LEVEL	Your Company	Per Company	Per Company
	£3,000 p.a.	£1,000 p.a.	£2,000 p.a.
